MEMORANDUM FOR CHIEF, SPECIAL FUNDS

VIA : Chief, FBZ

SUBJECT : Funds for the Use of Field Representative Appointed as Assistant Naval Attache

In the case of a recent appointment of one of our men to a post as Assistant Naval Attache in Shanghai, the office of ONI desires that the following procedures of payment be followed:

1. Normal representation allowances paid to Assistant Naval Attaches will be paid by the Navy from Navy funds allocated to CIG. Such funds will not come from the Special Funds Office.

2. Any additional task funds, which may be assigned for the use of the officer in question, will be paid from Special Funds and will presumably be pouched to him through our own channels. They will not appear on the regular budget of the individual, which is allowed him as a regular naval or marine officer.

3. The budget for operation of the project will, therefore, so far as Special Funds is concerned, have deducted from it the payments which would be made in normal course to an Assistant Naval Attache. These will, of course, include overseas and representation allowances allocated to an Assistant Naval Attache.

4. In the record of this project, and any others similar to it which may arise in the future, an estimate should be made of funds payable through Navy channels and of those payable through Special Funds. This breakdown should be indicated in the project, so that you will be aware of the extent of obligation which Special Funds will have under the proposed plan.

5. This information is furnished in order that CIG administration will be correctly informed.
